I completed my 10+2 from Pratishthan Learning Center of Lotus Petal Foundation in 2019 and I’m glad that I opted for Multimedia Animation & Special Effects course in the Jeevika program which helped me a lot in my current job as the course gave me the technical understanding of the computers and various software. I’m proudly working as a Computer Operator in Accounts department at Kunal Auto Industries Pvt. Ltd.

Puneet
Alumni of Lotus Petal Foundation

“I realized the importance of education when I joined Lotus Petal Foundation. I completed my 10+2 from here and I have never thought of having an independent life before Lotus Petal Foundation. Working as a Primary School teacher in Little World School, Haryana is like a dream come true. I have great memories of my school & I’m thankful to that.”

Poonam Kumari
Alumni of Lotus Petal Foundation.

VISION, MISSION, CORE BELIEF

VISION
We strive to nurture individuals and bring about a transformation in their lives through education.

MISSION
We provide exemplary education, nutritious meals, free healthcare and skill development to the children of the urban poor in India. We provide an ecosystem for people all across the world to contribute towards the cause of education with their skills, time and money.

CORE BELIEF
We believe in the intrinsic goodness of people. We believe that education is the single most empowering tool to transform an individual’s life. At Lotus Petal, we provide exemplary education and enable people across the globe to help us achieve this in ways that they may feel engaged and agents of change too. All of us passionately believe in equal opportunities. Giving selflessly transforms both the giver and the receiver.

"There is nothing that can be an obstacle when we decide to help each other"

This year has been anything but easy. The pandemic led lockdown and crisis has been an unprecedented situation for all of us. We all always read and heard that in the middle of every difficult situation there is an opportunity.

Our search to find that opportunity was to go back to our vision and mission. Why we exist?

We exist to provide people opportunities of transformation and we do that by running programs which deliver quality education, nutrition, and livelihood opportunities to the less privileged with the generosity of the privileged people.

In the year that has been there was no dearth of such opportunities.

During the year, your foundation successfully transformed into an online school which involved providing over 400 smart devices to students in the slums, transitioning to online teaching with new innovative ways and today it has provided over 7500+ hours of education and kept over 80% of the students fully engaged in the education process. The success of this initiative led to many other nonprofit school students to use the free online platform for their continued education.

The school kitchen was transformed into a community kitchen churning out over 2000 boxed meals every day which has fed over 250,000 daily wage workers enabling them to have a chance to get back to their livelihoods. The success of this initiative led to the launch of the ZeroHunger Foodbank to provide ongoing nutritional support to the famished and marginals communities.

We started a job portal called BlueKhoj, which has enabled the pandemic led unemployed parents of our students to get back into livelihoods. For all of them it was a first-time access to a free job market.

Today, many of them have got back their livelihoods and are returning to rebuilding their lives.

This has been a year of resilience, hope, compassion, courage, and togetherness.
This would not have been possible without your help.

Lotus Petal extends a sincere “thank you” to all its staff members, corporate donors, friends, individual donors, volunteers, and implementation partners who have made all this happen. You truly are making a difference.

Our belief in our capacity as individuals, as members of a global community is needed more than ever before. There is nothing that can be an obstacle when we decide to help each other. The ever-flowing energy which comes from this is being channeled by your foundation to transform lives across the globe.

Being part of our journey in any capacity is your contribution towards in making it possible.

One world. One Community.
Inspired to Serve

Kushal Raj Chakravorty
Founder & Managing Trustee

This extraordinary year brought with it an astounding opportunity to serve. With our Faith and commitment to Hope, the team at Lotus Petal was able to Transform and respond to the suffering in no time. Food, nutrition & livelihoods were restored, rebuilt & reimagined. We all grew Together. More of you seeking Solace by searching for an Opportunity to Give joined us.

Enduring to be the ecosystem of Courage, we are transforming to Embrace more, to Share with many & invite each who are willing to join us on the path of self-discovery to provide Dignity to all.

Saloni Bhardwaj
Co-Founder & CTO
At the Pratishthan Learning Centre students who have dropped out of the education system are integrated back into schooling with completion of grade 6 to 10 in 3 years, so that grade 10 may be completed at the right age. Along the journey of re-integration, the children are also provided vocational skilling under the Jeevika program to encourage both academic and personal growth. Communication, personality development, language ability, soft skill training (for ease of job hiring) and etiquette development is all integrated into the curriculum to encourage wholesome development of the child.

The five-year fast track education & skilling program of Lotus Petal which gets out-of-school students ready for a formal job. A program for those lagging behind in the education system by a few years due to fractured schooling.

A comprehensive English Medium program, the Pratishthan Learning Centre is based on NCERT curriculum and the board subscribed to is the National Institute of Open Schooling (NIOS) board. Re-entry into the mainstream education system is the ultimate aim of the program.
At Pratishthan, with the pandemic raging and lockdown implemented, classroom teaching was no longer viable. The attempt was to transition to online learning as smoothly as possible. With the support of donors, the students of Pratishthan Learning Centre were provided tabs and laptops. The pre-existing digital platform initially used only as the Learning Management System was repurposed by integrating Zoom and Academic monitoring features. The new session started amid the lockdown and online classes commenced from 28th March 2020.

At present Pratishthan Learning Center has 250 students. 4,058 hours of online learning have been conducted with periodic tests, online tests and 1st term exams all carried out online. Virtual assembly is conducted with regularity and children gain practical know-how through e-volunteering workshops conducted online. Exams for the vocational program courses such as SEPD, CCIP-level 11 and 12 and CCDTP have also successfully been conducted online.

"At GTPL, our social investment supports the communities and helps enrich lives in more ways than one. Keeping in mind, one of our corporate philosophy of focusing on providing education, we continued our association with Lotus Petal Charitable Foundation (LPCF) as we were satisfied with how they had utilised the contribution made by GTPL optimally for their model that provides free education, nutrition, free primary & secondary healthcare and exposure to learning and development through various school activities. We compliment to Team LPCF for their transparency, dedication and sincerity towards this noble cause. GTPL is feeling proud to have CSR association with LPCF. The LPCF plays a very vital role in the entire ecosystem of their operation which helps in nurturing the future of India and helping them to achieve bigger dream “Atmanirbhar Bharat”. Keep this good work going on and all the best!!!

Anirudhsinh Jadeja
Managing Director, GTPL Hathway Limited

"I had to borrow the smartphone from my neighbor to attend the online classes, and the data pack was also limited. There were times when there was a clash between my brother’s and my classes. All these problems are resolved with a laptop from my school. I will be up to date all the time now."

Mohit
Pratishthan Learning Center

"It was easy to attend the online school in the initial phase of lockdown as my father used to stay home but now, he has to go for work every day and there is no other smartphone in my home. The gift of Tablet from the Lotus Petal Foundation will help me to keep up with my studies. I used to miss my school before but now I’m so happy that I’ll be able to see my friends and teachers through online school.

Pranita Sahoo
Pratishthan Learning Center"
An English Medium, nursery to grade 10+2 school of Lotus Petal Foundation which provides age appropriate learning to children from under privileged backgrounds.

At the Vidyananda school the focus is on provision of quality education and developing a sound foundation that prepares children for mainstream life. The approach towards teaching is two pronged with emphasis laid on learning NCERT based curriculum and also on the overall development of the child. Attention is given to the holistic growth of the child, with activities such as fitness, art and theatre aimed at bringing out the best in each child.

The early introduction to computers, STEM education and science all allow children to relate what has been learnt in classroom theory to the practical world. The counselling wing helps the children understand and overcome their struggles with detailed confidential assessment reports being created to evaluate the child's gradual development.

Parent teacher meetings, in-house counselling, focus on extracurricular development along with persistent attention to curriculum, all help in the multifaceted development of the child.

Post the pandemic lockdown, the children were equipped with tabs and laptops with the help of our donors. YouTube videos covering curriculum were developed and at the same time the pre-existing digital platform initially used only as the Learning Management System was repurposed by integrating Zoom and Academic monitoring features.

As of now, the total strength of the Vidyananda school is 481 children. 3842 hours of online classes have been conducted and one-unit test and 1st term exam has been conducted as well. Language clubs and the computer club all meet online and their activities are carried out as smoothly as always. Personality building by using theatre, art and other creative pursuits are all carried out digitally.
When the lockdown happened, I was worried about how my classes would continue during the pandemic as we were 2 siblings and there was only 1 smartphone at my home. We started with sharing the smartphone but there were times when we both have classes at the same time. It was difficult for both of us to attend the classes. After getting a tablet from my school, I am able to attend all the classes and I’m happy to share that I have scored great marks in unit tests.

Naina Kumari
Student of Grade 3

The work that Lotus Petals is doing is highly commendable and we are proud to be associated with them. It is inspiring to see the number of lives Lotus Petals is touching by enabling the children to have access to a hygienic environment, nutritious food and quality education. I have always been impressed by the dedication, efficiency and positivity of the team and wish them luck in continuing this noble journey where because of everything they do, they give hope, happiness, dignity and a chance to every child there to achieve their dreams.

Ritika Luthra
Head Human Resources
B A Call Centre India Pvt. Ltd.
Jeevika is the skill development program of Lotus Petal Foundation. It focuses on senior secondary students, who complete their education combined with courses that enable them to be ready for the formal job market after grade 12th. Based on rigorous counselling and tests such as MBTI, DBA, NEO-PI 3 and Internet Record Test, the skill sets and aptitudes of the students are ascertained. The students then make informed choices as to where their skills are matching with certain courses that educate them beyond their academic curriculum. 16 vocational courses are offered in association with NIIT foundation.

Building up the academic learning of the students and providing them with a life skill, all by the time they graduate is the key aim of the program.

The skill development is focused on sectors that have incremental human resource requirements. These include – Banking & Financial Services, Electronics & IT hardware industry, Healthcare Services, Transportation and Logistics, Retail, Telecommunications and Tourism & Hospitality.
THE VOCATIONAL COURSES OFFERED TO THE STUDENTS INCLUDE

• Certificate Course in MICROSOFT OFFICE 2010 (CCMO 2010)
• Certificate Course in DESKTOP PUBLISHING (CCDTP)
• Certificate Course in WEB DESIGNING (CCWD)
• Certificate Course in SPOKEN ENGLISH & PERSONALITY DEVELOPMENT (SEPD)
• Certificate Course in BUSINESS CORRESPONDENT (BANKING & FINANCIAL SECTOR)
• Certificate Course in SHOWROOM OPERATIONS : RETAIL TRAINEE ASSOCIATE
• Certificate Course in CUSTOMER RELATIONSHIP MANAGEMENT BPO-VOICE
• Certificate Course in DATA ENTRY SKILLS
• Certificate Course in BASICS OF ACCOUNTANCY & OFFICE AUTOMATION
• Certificate Course in TALLY PRO
• Certificate Course in LOGISTICS MANAGEMENT
• Certificate Course in IT FOR PROFESSIONALS
• Certificate Course in COMPUTER CONCEPT – Level – 11 & Level
• Certificate Course in ENGLISH FOR LIFE (CCEF) (Level – 4)

Personally, I feel get lot of satisfaction when I get connected to Children to help them grow, make them independent! Very professional and hardworking team who are motivating and encouraging others to join the league. My passion is “Nurturing Young Minds” Lotus Petal Foundation has given me the platform to work for the cause which is very close to my heart. Teaching children on values, behavioral topics and employability skills making a difference in their lives, so they become Confident and employable.

Proud to be part of Lotus Petal Foundation!

Poornima Suryawanshi
Individual Volunteer Siemens Ltd. Gurgaon

Post lockdown, Jeevika courses have been conducted online and exams have been held for Spoken English and personality development, Desktop Publishing, Computer Concept.
The goal of Sahyog is to provide overall support and expansion to Government schools. The program has had great success at various Government Schools including Government Middle School of Lohatki, Haryana, India, where clean drinking water, toilet facility, fans and furniture for classes were all missing. The teacher strength was inadequate. This is the common state of affairs in various government schools.

Teachers from Lotus Petal have been sent to the school to assist the faculty and a Library and a STEM learning lab has also been developed. To supplement the academic learning of the students, art, theatre, English and sports teachers have also been sent to the school.

Post Lockdown fast paced infrastructural development has been carried out at various Government schools including the one at Lohatki, with the building of the Computer lab, Virtual class room, painting of school building, electrical bulb and fan installation, development of garden, Installation of printer, the construction of toilet, anganwadi rooms and tiles work in the corridor.

Various other government schools are being added to the program as we move forward.

As promised by Lotus Petal Foundation & Concentrix, our school will be revamped and repaired inside out; New washrooms will be constructed, Kitchen will be constructed in the ground floor, tiling of the classrooms, terrace water proofing, water coolers and painting of our school.
Philips India has been associated with Lotus Petal Foundation for 2 years now. Our CSR partnership with the foundation has ensured quality nutrition to students, which is an important aspect of health and wellbeing while imparting quality education for their bright and empowered future. The Aarogya Wellness program assures a balanced nutritious diet that helps to build a sound foundation in the formative years of a child. Wishing the team Lotus Petal Foundation, the very best for its future endeavours.

Sakina Baker
Head- CSR, Indian Subcontinent Philips India Limited

Arogya is the healthcare program of Lotus petal aimed towards developing a foundation of health and immunity through hygienic meals and free healthcare.

Without a solid base of health and nutrition, comprehensive education cannot be accomplished. Keeping this in mind, freshly cooked breakfast and lunch is provided to the students of Lotus Petal daily. A weekly OPD is conducted at the school by Dr. Nandita Chakraborty and any specialist interventions such as dental or dermatological are arranged.

A yoga-based fitness program is conducted for the students along with continual access to counsellors for the mental health wellbeing of the children. Younger pre-primary children are provided a special breakfast which has led to visible improvements in cognitive abilities.

A monthly health camp is conducted at the premises of Lotus Petal on the first Sunday of every month. Eye testing, pathology and lab work tests are all provided at the camp with over 3,737 people having reaped the benefits.

Post the pandemic lockdown, Lotus Petal Foundation is in the process of developing a telemedicine clinic. Here the aim is to provide value-based medical interventions and easy access to medical consultations via teleconferencing and digital devices to people.
Our Core Theme

Get child job ready with focus on curriculum and extra curriculars for wholesome growth
Development of skills to find a job
Vocational skilling for entry into mainstream
Counselling, workshops, trainings all to prepare the child for formal employment.
Skill development to stay committed to the job and hold onto it.

Good health and well-being with focus on mental health, fitness and overall growth of the child
Based on cooking fresh meals from fresh seasonal produce sourced directly from farmers.
Aimed towards better immunity, and access to primary healthcare facilities for the children.
Ability to provide immediate nutrition to the larger community
Targeted nutrition for various age groups.

Education

Quality education
Targeted curriculum developed in house keeping in mind the needs of the underprivileged.
Clearly marked and mapped learning outcomes for each class.
Language skills, personality development, etiquettes all emphasized upon as part of education modules for all round development of the child.

Vidyamanda School
Sahyog
The impact of the pandemic has been auxiliary in increasing inaccessibility of food. 2,56,000+ nutritious freshly cooked in-house meals have been distributed during the ongoing pandemic.

Building on the experience of delivering nutritious freshly cooked in-house meals with a target to deliver hygienic foods and essentials, supplement nutritional plans in the government agencies and affect change in low income clusters the foundation steps foot into this new area with great hope and enthusiasm.

Lotus Petal Foundation is uniquely placed in the efforts toward reduction of the food shortages. With an in-house kitchen that employs women workers, the capacity for daily food production is 2000+ meals.

Meals have been served with measured Kcal and protein from the school kitchen with visible improvement in the children’s health indicators ultimately leading to better cognition which has led to better learning outcomes. This encouraged the organisation to use its vast experience to provide food items both in cooked form and as dry-ration to the destitute in the area.

The Zero Hunger Food Bank has been set up by the Lotus Petal Foundation as an attempt to satiate hunger and to provide sufficient nutrition in adequate quantities to those most in need.

The objectives of the platform include provision of relief of food supply during calamities and humanitarian crises. Also, supplying nutritious meals to school children in government and non-profit schools. And finally, providing supplementary nutrition to address long term malnutrition issues in children from 0 to 5 years.
53% women between 15-49 years are ANAEMIC

3 IN 10 Stunted Children Are Indian

Over 80% Infant & young children do not get minimum dietary diversity
The pandemic has been a time of great turmoil and financial instability for many. Underprivileged communities are especially vulnerable at such times. Parents of many of our students have been impacted and have lost their livelihoods.

Lotus Petal has seen this as a unique opportunity to act as mediator between people who were looking for employment and those searching for employees.

Connecting job seekers to job providers is the main aim of the Bluekhoj program.

In an attempt to help people regain their lost means of income and livelihood, Lotus Petal ensures that the job placements are at appropriate and new positions.

So far 14 people have found employment with the Bluekhoj program. The program continues with the hope of assisting many more people find a means of sustenance.

“I am grateful to share that I am currently working as a field boy for Mr. Vinod Shenoy at Baobab Clean Technologies Pvt. Ltd. Now I don’t have to worry about the basic facilities of my family as Rs. 17,000/- a month is more than enough to run the house. Thank you, Lotus Petal Foundation for getting me this job and helping me in this pandemic.”

Khemchand Diwakar
Parent of Manvi Kumari (student of Vidyananda School).
ADHM 2019

It was the 6th consecutive year of the participation of Lotus Petal Foundation at the Airtel Delhi Half Marathon 2019. A spectacular year, Lotus Petal was recognized as the highest fundraising non-profit at the event. Students and staff members ran the 12th edition of the ADHM in New Delhi.

UDAY

The annual day celebration of Lotus Petal, Uday 2019 was held in November 2019. Seats were filled with over 2000 parents, donors, corporate partners and associates. All the children participated showcasing their talent. The show was streamed on social media for overseas and outstation supporters. All in all an evening to remember.

E-VOLUNTEERING ACTIVITIES

With online learning the new normal, volunteering also transformed into e-volunteering. Many corporate employees and individuals volunteered and conducted e-workshops with the children. These ranged from topics such as ‘new normal’ to ‘training on cyber security awareness’. The workshops are age appropriate with topics such as excel, business emails and resume building skills for the older students of PLC, storytelling for younger students and health and hygiene and therapy sessions for all students.
Close to 84 million Indian children do not attend school and the dropout rates after grade 10 and 12 remains high. For most, the reason for abandoning education mid-way is financial. Families not having the means to educate their children results in children taking up menial jobs and being stuck in them for the rest of their lives.

Scholarships however, have the power to open doors for students from low-income families, by providing financial aid. Lotus Petal Foundation offers a variety of scholarships to students.

The R.S. Shetty scholarship for all round excellence is awarded each year to the 1 boy and 2 girls each year for Rs. 1.5 lacs. It is awarded to those students of the pratishthan learning centre who display distinction in academic performance, leadership skills, attendance and have overcome challenging situations at home. The scholarship is utilised towards the educational expenses of the recipient student.

The winnie sun scholarship for undergraduate studies is another scholarship awarded by the organisation. It aims to empower female students from less privileged backgrounds towards taking up courses such as mbbs, bds, engineering, nursing and pharmacy. Rs.65000/- annually are provided to supplement the girl student’s fee at their college.

Going forward lotus petal is in talks to introduce many more such scholarships for the students.
Lotus Petal has long term consulting engagements with certain corporates. These have been collaborations where the corporate employees either work at Lotus Petal for a substantial period of time or work on specific projects that continue for a few months.

The GSIF program was a 1-year engagement in which the Genpact social impact fellow helped develop the entire HR management system for Lotus Petal. RTI International assisted in capacity building by way of developing grant proposals etc. Also, the entire social media strategy for the organization was supported by inputs from Toolbox. The automation system for the upcoming Dhunela Campus was designed by Adobe under its Adobe Pro Bono Residency program.

The Adobe Pro Bono Initiative mobilises the talent of our employees in projects that advance the efficiency and reach of mission-based organisations. Adobe employees lend their technology, design, marketing and other expertise to address critical social issues while developing their expertise and leadership skills in a new environment.

The project with Lotus Petal was to design the automated security systems, IT Infrastructure at the upcoming campus in Dhunela. The project was adjudged to be the best and is presently under execution. We thank the 3 team members Adobe: Seema Sardana, Sandeep Sharma and Hiamnshu Soni. We also acknowledge the contribution of Sonal Dhir, Program Manager - Brand Purpose and Social Impact.

Our relationship with Lotus Petal Foundation has been enriching and helps us realize our vision through systematic interventions, donations and volunteering initiatives directed towards staff and children. We truly appreciate the Lotus Petal group for the work they’re doing to bring a positive impact in the lives of the underprivileged children, especially the Covid-19 response program, zero hunger food bank, online school, community kitchen.

I thank Lotus Petal Foundation for their partnership and look forward to continuing working with them to make education accessible for all sections of our society.
The organisation has plans to scale from the current level of 2,800 beneficiaries per year in one campus to 17,000 per year by 2027. The setup of the new campus is spread over 5 acres and provides ample space for textbook and extra-curricular learning.

To this end, a state-of-the-art learning centre is being developed at Dhunela, an area on the outskirts of Gurgaon to provide education for underprivileged students. The school aims to address the problems arising out of the gaps in education and nutrition of the urban poor.

The facility will be equipped with virtual classrooms, playgrounds, contemporary learning competence, science and computer labs, libraries, clean toilets, hygienic dining facility and security measures. The land for the school has already been purchased and expeditious development of the structure is already in progress.

SPONSOR A MEAL
To celebrate a special occasion or to commemorate an event, meals can be sponsored at nominal rates. These meals, breakfast and lunch are prepared at the in-house kitchen at Lotus Petal and special meals can also be served as per request.

SPONSOR A CHILD
Donors who wish to contribute by sponsoring the education of a child for can do so for a period of one year. The donor will be given login details to the in-house learning management system and can track the progress of the child through the year.

CORPORATE MATCH
Many corporate benefactors subscribe to this way of giving. Employee contributions can be doubled thereby making a great increase in impact. Donor’s such as Apple, Google, Cisco and others have all contributed in this manner.

NAMING RIGHTS
Generosity of individuals or organizational assistance can support the maintenance of certain sections of the school such as kitchen, computer lab, library etc. which are all earmarked as ‘Naming rights’. Donations towards upkeep are made based on naming credits as per wish of the supporter.
Made up of people looking to utilize their skills and time towards creating a better life for the underserved community, Lotus Petal USA is a non-profit corporation whose members volunteer their time to organize events & engagement opportunities that help in creating awareness across USA & in turn raise funds for the multiple programs run by Lotus Petal Foundation, India.

Focused towards building awareness and raising funds to contribute towards the multiple programs run by the parent organization in India, over the years, Lotus Petal USA has organized galas & talks across United States to garner momentum towards building cognizance. Volunteers of various age groups have spent engaging summers in India to Volunteer at the schools run by Lotus Petal in Gurugram, India.
The paramount objective of the work done at Lotus Petal is to emerge as an ecosystem of support to the child. To act as an umbrella under which people who wish to be the change, come together to give flight to the aspirations of underprivileged children. Developing an atmosphere of harmonious coexistence and ultimately to provide an environment where the child can truly blossom into a full-fledged autonomous life.

In the last decade, Lotus Petal has endeavored to transform the lives of children, one child at a time. In every program undertaken and every initiative launched the idea has been to stay true to this ultimate goal. For the real transformation of a child three key areas have been found fundamental - Education, Nutrition and Livelihood. Thus, interventions by the organization have focused on these central areas.

The interlinkages between these three factors are self-evident. With good nutrition, provision of quality education, supplemented by vocational skilling and overall personality development, gaining sustainable dignified livelihood can be a serene, uncomplicated process for every child. This has the potential to subsequently improve the lives of the children’s families thereby encouraging and uplifting the entire community. Going forwards, Lotus Petal is progressing towards reaching a larger beneficiary base and is committed to ensuring a life of dignity for each child.

Concentrix is proudly associated with Lotus Petal Charitable Foundation since 2016. They have been doing amazing work towards ensuring an educated and fulfilled and bright India by supporting the education of underprivileged children of the society. Their programs around education & wellness, strong governance, compliance and integrity is their USP. They are an extremely committed and passionate group of people who works relentlessly and tirelessly in making a difference in the lives of the vulnerable sections of the society. It’s not only how professionally they do what they do, but also the compassion and dedication they bring to the table is commendable. Sahyog is one of their outreach programs which provides infrastructure development & academic support to government schools in India. Concentrix, with the support of Lotus Petal Foundation - under Sahyog project has upgraded the infrastructure of the Government Middle Schools, Lohatki, and Silokhera, Haryana. Concentrix is extremely glad to be partnered with the organization in all its activities and wish them great in future endeavors.
